NATIONAL EDITORIAL ASSOCIATION

The cigarette—that harmless looking little tube of paper filled with tobacco—has been as lethal as a bomb.

Last year, in New York City alone, smokers were responsible for more than 4000 fire deaths and damage to the city's total loss of just under \$20,000,000.

We can blame the need for this sorry record—and it is a record which is paralleled on a smaller scale in many other American cities, towns, and villages. The offenders are the people who do the smoking. They smoke in their cars and cigarettes and hot pipes down and forget about them. They discard butts without seeing that they're extinguished.

It has long been known that carelessness with matches and smoking materials is a prime cause of forest fires which have destroyed millions upon millions of acres of our forests.

This is one of the worst of all the tragedies fire causes—buildings can be erected in a comparatively short time, but burned trees cannot. One cigarette, one match, one carelessness, when conditions are "right," to destroy for generations a natural wonderland.

How can such waste be stopped? Only the individual smoker has the answer. It lies in accepting the responsibility that is his every time he smokes.

School News

By Gordon Matthews

F. H. A. A special meeting of the Future Homemakers of America, was called Tuesday during which period to discuss going to the State Fair in Tampa being held February 3 and 4. Expenses will be about \$15.00 per person for this educational expedition.

Accommodations are being sought now by the committee appointed and if enough girls go, we will take a bus.

The F.H.A. received several compliments on the holiday dance we sponsored December 18. It is said to be one of the nicest dances ever held in Belle Glade High School.

The dress of the girls in the school has improved from so many dungarees and pedal pushers to neat dresses and the F.H.A. was given good credit for the accomplishment.

It was decided that the F.H.A. will sponsor a big dance the night of the annual football banquet and split the proceeds. More a definite plan will be made as the time draws near.

Before the valuation of our high school in May. It was requested that the F.H.A. historian write a history of the club's various activities during the year and its purpose as an organization. For few people realize that the F.H.A. is not just a local club, but a national organization to instruct girls toward better homes.

Our president, Joanne Kent, and honorary vice-president, Catherine Friedheim will be sent to the F.H.A. Convention in March; and at the last meeting in May, installation of next year's officers will be conducted. This meeting will be held in the high school auditorium and the public is invited to attend.

Why Scoop No Longer Works Here

Scoop Blake told me in a friendly way that the Clerk's office had been and was talking about it. I found out that I was getting that news right from your desk. I told him, "And how I wish you got out and learn what a scoop job was all about?"

"I am Joe," said Scoop, "I want to thank you for teaching me the 'scoop'—putting on my hat and finding out the facts, that is." "Then we both had a good laugh because he found out so much that

Two Schedules

Two happy groups of students when we received the announcement that there will be no semester tests. Happy day! Here's the schedule for the regular six week tests, Thursday, Jan. 24, 2nd and 4th period; Friday, Jan. 25, 3rd period; Saturday, Jan. 26, 1st period; Sunday, Jan. 27, 1st period.

The Pep Club met Tuesday during sixth period to learn a few new yells for the basketball season. This year the club leaders and student body are going to support the basketball team.

A FRIEND TO FARMERS
APPEARS ON MARKET

Chemists have been searching around for a new insecticide that had better killing qualities than the popular DDT, and it has come in the form of

RHOTANE

It will give Better, Safer Protection against Corn Earworms and Borers, and other plants on which DDT has been used. It is approximately 1-5 — 1-10 as toxic to warm blooded animals as DDT.

Research has shown that Rhotane has been most successfully used in spraying Vegetables, Forage Crops, Live Stock, Fruits, in Mosquito Control and many other new uses. A deadly enemy to "hornworms". GIVE IT A TRIAL AND BE CONVINCED

OBSERVATIONS
Continued from page 1
It is expected much construction will be started in the present year. The optimism split still continues with the Chamber of Commerce as to our future growth, in which most citizens concur.

That was not an unduly gesture the Florida East Coast Railway made to the city, of a share and share basis, for the improvement of important traffic streets in the industrial packing house section. Railroad provides engineering services, and building materials, and the city to perform the work of rebuilding more than a mile of street work.

While the City of Belle Glade found out in 1948 that it had lost a considerable amount of money by pilification of a trusted servant, the Administration is certainly taking every precaution to prevent any such loss. Safety measures have been inaugurated and new office machinery in the office, and new banking practices, even to setting up a safety fund of city funds.

Dads and Mums you may as well get it settled now that you are going to attend the dance on February 2nd. Why do I know. Well, I was a father of a son, I know the boys, they can exert when desiring to go to some covered attraction, such as a circus, or a dance, some loose change for popcorn, peanuts and candy, for the most part, the children will be well as the kids. Rogers Drive, say a bigger and better circus than last year.

The annual banquet for the Lions and Elks, the school kids, is to be a joint one, for both football and basketball. The Lions and Elks will prepare and serve the big meal. The Lions and Elks were financial backers of the banquet, now booked for sometime in March. The boys deserve a recognition of this kind.

There is not a uniformity of opinion as to the school kids, is to be a joint one, for both football and basketball. The Lions and Elks will prepare and serve the big meal. The Lions and Elks were financial backers of the banquet, now booked for sometime in March. The boys deserve a recognition of this kind.

Newspapers of the east coast cities of Philadelphia and Newark are giving much space to the religious and healing work of an eight year old evangelist called "Little David." This talented lad preaches the gospel with force and unctious and compasses it with strange powers to heal the sick, reduce the sight of the blind, cause the lame to walk, the deaf to hear, and the dumb to speak. It reminds one of the story of the miraculous cures made by the man of Nazareth as he carried on his work before the crucifixion on the cross.

Army Engineers and aerial photographers will soon begin making surveys and pictures of the important Kissimmee river valley in connection with the proposed flood control project, which the Engineers have declared the second most important task in the project. It is from this valley that mammoth amounts of water feed into Lake Okechobee. However, before reaching the lake, the river flows lands, largely used for pasture are flooded, and in the past two years have done millions of dollars worth of damage in the lake region will be avoided. Wonder what this entire central and south Florida section will look like 35 years hence.

"Jiggs," the dog owned by Officer Ruskay, and the pet of the city hall gang, is no more. Doggie, he wandered from home, and got under the wheels of an automobile and went dog heaven in a hurry. That is all he had a lot of sad-looking and friendly dog masters.

Senator Claude Pepper and Representative George Smathers are to oppose each other for the Senate, look out for a wide open "dog and cat" campaign, in which no punches will be withheld. Claude is a trained politician, an effective stump campaigner, and "wise" in the political game. Smathers has been along fast in the political game, and may be able to give the older opponent some good in modern campaigning.

The efforts now under way by the Grand Lodge of Florida, Masons, is a most worthy government. While the home at St. Petersburg has accommodations

for most of the aged people, there are some classes who own the type of homes are not desirable. This endorsement fund, that is the income from the homes, is in the hands of the Chamber of Commerce. Two million dollars seems like a big amount to raise, but leaders are sanguine that it will be accomplished. With 4,000 Masons in the state, it would mean \$50,000 to be paid over a period of say five years.

The men who are working on the construction of the Community Methodist church, say that Dominie Vanderwater is a real watchdog inspector, and that he means nothing, and that he could be a good supervising architect if he were not a minister. This is the third church he has had a hand in erecting in the Florida Methodist conference, McMorris and Jacksonville. Rev. Jay O. Jamison, now in Miami, has a similar record. He is well along in the church building at Allapattah in Miami.

A roomful of Masons get much delight out of the way in which Rev. J. E. McDewey, grand chaplain, told the Treason and Warren administration, that he had been a son in Washington helping Truman run the government.

Ramie has a great tentative plan. If only some tentative plan, or inventor can create a car, his dealer would be well as the kids. Rogers Drive, say a bigger and better circus than last year.

The Methodist WBS is raising funds by means of a "Milkshake Basket." The names of all members are listed in the basket will be passed. Each member takes the gift that is in the basket as her gift, and places in the collection box a confluence sum of money, and another gift in the basket, to be passed on to the next stop. The ladies hope to collect a reasonable sum of money for their treasury by this means.

The Government bureau who has the final naming of rivers and waterways now says that the Indian river is not correct, but that it is Jupiter sound and Inlet. The river is the Loxahatchee and not the North fork river. Guess that settles the question.

A subscriber wrote the editor of his local paper asking him to write where it was proper for a gentleman to raise his hat. The editor replied:

"Without committing etiquette authorities, I will give you a horn-back opinion on the subject, and suggest that the hat should be removed on the following occasions: When moping, when taking up a collection, when being shaved, when being shampooed, and when standing on a soapbox."

Americans have long been accustomed to buying canned meats, pork, chicken and fish. Now a California firm has sprung a new one on us, in the form of turkey legs. It is a roast turkey meat, free from bones and gristle, compressed in various cylindrical rolls to meet the demands of the consumer. The meat is prepared for the restaurant and large homes demands, so that they can have turkey on tap for the chef's menu. There is also a simple mechanical roaster, which will heat up the cold turkey and provide ground for the gravy and dressing. The Norbert Company, the largest Co-Op poultry processing firm in the world is the introducer of the turkey leg. Turkey in this form is handy at Thanksgiving and the Holidays, where one can't use a big bird.

Mother was absent from the dinner table, and mother, speed and, in her chair and pretended to take her place.

Father was watching the child's solemn assumption of maternity with ill-concealed gloom, when her brother, looking at her position with the remark: "So you're mother tonight? Well, if you're mother, tell me how much is six times nine?" Calmly and without hesitation, Dorothy replied, "I'm busy—ask your father!"

—J. Marcus Hill

Wear White At Night

At You Plan To Walk

On Public Highways

"Traffic safety is everybody's job," commented E. H. Kirkman, Director of the Florida

Highway Patrol, today, "and by that I mean that every person who walks, rides or drives has his share of responsibility for the needless tragedies occurring daily on Florida streets and highways. The efforts of the State Patrol combined with those of every law enforcement agency in the state can accomplish little without the active support and cooperation of the citizens of this state. We are asking every motorist and pedestrian to do his part to make a good example in 1950. One does not have to carry a gun and badge to contribute his share in solving the safety question," according to Kirkman.

The Florida Highway Patrol is continuing its traffic safety educational program in 1950 on an all out basis, and is coordinating its statewide efforts with the National outline furnished by the National Safety Council. The value of a coordinated safety program has proven itself by the 15 percent reduction in highway deaths in Florida during the first 10 months of 1949. Past accident statistics for the full year are not yet complete, but indications point to a slight decrease over 1948 when 713 people died on Florida highways.

Kirkman pointed out that common courtesy is the single quality which will do more than anyone thing to reduce traffic accidents. "We believe that a firm New Year's resolution to practice courtesy at all times will automatically cause every driver to be an example for every other driver," said Kirkman. "At least the courteous drivers will have clear conscience and an accident-free year."

"Wear white at night when walking" is the advice given to pedestrians today by the Florida Highway Patrol in pointing out that darkness multiplies hazards for those afoot in traffic.

The Patrol pointed out that many pedestrians do not realize that drivers cannot see them at night until dangerously close. They are even more difficult to see when wearing all dark clothing. Specific suggestions were made by the State Patrol to pedestrians for increasing their visibility at night. Among them were to wear a large area of white clothing; carry white such as a handkerchief, or carry a flashlight.

The Patrol reports that even with these devices, pedestrians are dangerously difficult to

motorists to see at night. So those afoot at night must watch out for themselves.

Uncle Sam Made Rich By Florida's Income Tax Payments

Floridians paid \$242,558,244 in internal revenue to Uncle Sam during the last fiscal year according to the Florida State Chamber of Commerce.

This week's business review of the State Chamber's research and industrial division places this sum at almost twice the gross value of the 1948-1949 citrus crop.

The total collected in Florida was made up of \$194,788,038 in individual income taxes; \$70,840,057 in corporation income and profit taxes; \$20,880,709 in employment taxes and \$55,949,461 in other types of internal revenue such as taxes on liquor, tobacco, luxuries and amusements. Corporation and employment tax collections were greater last year than during the fiscal year ending in 1948.

How much Floridians pay in addition to the so-called "hidden" federal taxes is not known. "These war-time taxes designed to discourage business," State Chamber said, "are still doing it in taking a terrible toll from private enterprise."

Florida Industrial Picture Indicates Growth During 1950

Florida's political climate is attracting the attention of new business, just as its sunshine attracts visitors, McGregor Smith reported to state officials. He is chairman of the newly created Florida Industrial Development Board, appointed by Governor Warren to bring more light industry to Florida.

Chairman Smith said he has had excellent reaction from the New York Society of Security, a state, in which he said Florida's political climate also is something to brag about.

"Our legislators are leading bankers, ranchers, farmers and small and large business men, he told the financiers. "We have no punitive laws against business, no state income tax, no state property tax, no bonded state debt and no duplicating inheritance taxes."

Smith who is president and general manager of the Florida Power and Light Company, said his directors have authorized an \$18,000,000 construction pro-

gram for 1950 because of the bright outlook for Florida. A new plant at Palatka will be started, a large plant at Citrus another generating unit at Sarasota will be finished and the entire state-wide system will be expanded during 1950, he reported.

New Poultry And Egg Market For Glades Country Poultrymen

E. C. Fogg, president of the Land O' Sun Dairy, at Moore Haven, is branching out into an additional line of business. He proposes to establish a market for the purchase of poultry and eggs, which will be disposed of in the Miami area.

Miami Alumni Of Mt. Union College To Hold Reunion

The alumni and students of Mt. Union College, at Alliance, who reside in the Miami, are to hold a dinner reunion at the New Student club at Miami University, on Sunday evening, January 29th. At this time President Charles B. Ketchum, president of Mt. Union, will be present.

Mr. and Mrs. Leon Snyder, with other cowboys who help thrill the audience.

Lions Club Circus Expected To Be Sold

The first big sale in the campaign of the Lions Club to raise money for their educational fund, will be their sponsorship of the big Rogers Bros. Three-Ring Circus with Wild Animal Menagerie and Horse Show combined which they are bringing to Belle Glade, on Feb. 2nd, it was announced today.

In urging the support of the people of Belle Glade, Mr. Spot Burr emphasized that their share of all money securing from the advance sale of tickets.

STATES TAXPAYERS

Continued from Page 1 worth \$19 apiece. The farm also reported shelled corn to the Ralston Prison for 20 Guernsey heifers valued at \$75 each.

This record was made in the face of an August hurricane, an early frost and an unusually wet late December.

Among the items produced at the farm are: canned tomatoes, canned beans, dried beans, rice, cabbage, citrus, strawberries, turkey, chickens, ducks, pork and beef, as well as corn for

to the circus goes directly into the educational fund. "So get your tickets early," Mr. Burr said. "Our members are not selling them right now! Advance sales of advertising and tickets are being sold over the phone by Mr. and Mrs. 'Doc' Tumb.

The Rogers Bros. Circus has this year, without fear of contradiction, one of the greatest thrill packed performances ever to play under any outdoor circus Big Top.

Among the more than 250 acts, acrobats, clowns, jugglers, equestrians, and other star performers and attractions featured in the performance will be Charlotte and Capt. Eddie Kuhn, performing one of the world's outstanding wild animal acts by presenting lions, tigers and bears in their huge steel arena; a new and greatly enlarged cavalry of precision-performing horses expertly trained and presented by Capt. Jimmy O'Dell, foremost horseman and master of Haute Ecole.

Mr. Burr said that the Lions Club has contracted with the Governor and the Board of Agriculture to appear here for two performances. One in the afternoon and one in the evening.

After considerable discussion, the Governor and the Board of Agriculture have agreed to appear here for two performances. One in the afternoon and one in the evening.

Mounts said, were caused by freezes in California and Texas, two states which produce a great share of the nation's vegetables, but where crops were wiped out last year.

"Though the sandy farmlands along the coast are highly productive, Glades mucklands remain top producers in the vegetable field," Mounts said. Principal reason for this is that Glades growers produce some 20 varieties of vegetables about eight months out of the year while coast farmers produce about seven varieties of vegetables during a four month growing period. About 14,000 acres along the coast are now being used to grow vegetable and gladioli.

"Fast growing in popularity as a crop, is sweet corn," Mr. Mounts reported. Three years ago, no sweet corn was grown in the county but last year between 7,000 and 8,000 acres were planted to corn. Mounts said he expects the acreage in sweet corn to increase this year. Potatoes, which are a staple crop in the county, Mounts said. Heavy rains during the potato harvesting season have reduced this crop to minor importance in the agriculture picture.

As for the future, the county agents expect to continue pushing conversion of lands to agriculture for cattle raising and will also seek adequate means of marketing livestock in the Glades. A livestock auction center is now being set up and is expected to get underway within a few weeks, the county agent said.

Other sections of the agent's report disclosed that a number of dairymen are developing new types of pasture land which will enable the dairies to feed larger herds on the same amount of land.

Promotion of 4-H Clubs throughout the county, an activity which is directed by H. C. Causey, one of Mounts' assistants, was termed "excellent" by the county agent. Boys and Girls who are members of the club have been taught the principles of farming and livestock raising. Reporting on 4-H Club work in the Glades, H. L. Speer, assistant county agent in that area said one of the major projects of the year was the first annual Southeastern Livestock show held last April in which entries were listed from 16 South Florida counties. This show will again be staged this year.

Some of the projects carried out by the nine boys' 4-H Clubs which have a membership of 109 by the county agent. Boys and Girls who are members of the club have been taught the principles of farming and livestock raising. Reporting on 4-H Club work in the Glades, H. L. GMC to Offer More Models, More Power, More Features for '50

GMC dealers across the country will soon be displaying new 1950 models. While few of them have the room to feature exhibits as extensive or elaborate as this special factory showing, it takes only one GMC to demonstrate the rugged good looks, the sturdy truck-built engine and chassis that are characteristic of every one of the wide variety of light,

medium and heavy duty models in the GMC 1950 truck line. Additional models this year will include new series in the 1 1/2 and 2 1/2-ton ranges, new middle-weight six-wheelers and new lighter Diesels. In addition, GMC will feature increased horsepower in its light and medium duty engines, as well as many cab, chassis and engine advancements.

FLORIDA'S HEALTH

Continued from page 1

last year, he said, and "there will be no let up in the fight against these diseases."

Man-against tuberculosis continued on the same scale with 350,000 receiving the service last year.

Special efforts aimed at lowering the high infant and maternal death rates, begun in 1949, will be stepped up this year, Dr. Sowder declared. Maternal mortality survey committees are already being formed over the state, while plans go forward for establishing central premature nursing center in large areas.

The state's number one killer, heart disease, is in for a big year. "One of the most important advances in public health last year," said Dr. Sowder, "was the beginning of 29 new water treatment plants and 34 sewage disposal projects, costing nearly 18 million dollars. Sanitation pollution surveys started last year."

Two million tests were performed by State laboratories—public health nurses made 308,489 home visits—sanitarians made more than 300,000 inspections—4,489 persons were trained in the food handlers schools operated by the state health agency.

County health departments established a health department leaving only four counties—Lee, Collier, and Santa Rosa—without such service. Florida is now at the top of the nation for percentage of people covered by public health services.

Abolish the State Acts last year, pertaining to public health were: a law making birth and death registration information confidential; provision of funds for expanding the diabetes and mosquito control programs; a

law providing for the compulsory isolation of recalcitrant persons with tuberculosis.

METHODIST SCOUT

Continued from Page 1 field meets with other troops in the Gulf Stream Council.

Somehow, the local boys interest dwindled, or perhaps it would be better to say, that their interest was drawn away by the diverse activities of modern life—movies, football games, school plays and other school activities, and in the case of the older boys—auto and girl friends. The result was a discontinuance of the meetings early in 1949.

When this Community Methodist Church, which fosters Scout 22, decided to build the unit new, the job fell to the pastor, Rev. J. H. Collins, who is institutional representative to the troop. Rev. Vanderwater approached them young men last September with hopes that they would help fill the positions of scoutmaster and assistant. He realized that such an arrange-

ment would be makeshift at best, for neither man had been connected with any type of scouting or had led any boys' group. Somebody was needed, however, and the two were willing to "give it a try."

Quite naturally, their first duties were those of arranging meetings and sparking interest. This proved to be a surprising but an easy task. In fact, here's what happened: Eight boys showed up for the initial meeting, only four for the second, and when a winter coat was in the office for the third, eight appeared. So it went for the first seven weeks, with attendance alternating between 8 and 4 boys. There just weren't enough boys present to make possible any regular Scout program.

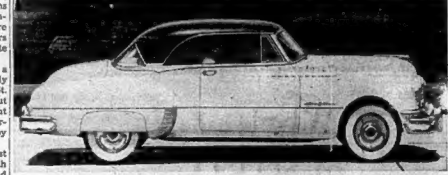

Finally Scoutmaster Gerald McKee grew rightfully impatient and stopped all meetings. This gave him time to confer with church authorities, the District Commissioner and the Troop Committee. A conference was held in late November on

a Thursday evening at 7:30, which had been the boys' normal meeting time. And though they weren't called, sixteen boys popped up for the meeting. That was encouragement enough and the weekly meetings were resumed without further debate.

There are now sixteen boys aged 11 to 14 enrolled in the troop, and since the emergency confab was held, the weekly attendance has not been under seven. The Scoutmasters, Commissioners and Troop members have their names on the Application for Charter, and with its approval by District Commissioner Norman C. Haylip, await only the official installation.

That ceremony will be a big event for the boys. It is expected to take place on one of the next three Sundays at the Methodist Church, Rev. Vanderwater will deliver a sermon on Scouting, "Exhortation for Parents." Read THE HERALD for later information, or better yet, stop by to CHURCH next Sunday and find out firsthand.

Pontiac Displays Its Super-Sleek 'Catalina'

Pontiac's rakish, stylish Catalina models offer the lithic grace of the convertible with the comfort and all-weather adaptability of a sedan. Catalinas are available in Super-Deluxe and Deluxe models and differ in color choice and interiors. Illustrated is the Super-Deluxe in Ivory and Sierra Rust with matching leather upholstery and interior decor.

Dollar for Dollar— you can't beat a Pontiac.

The Least you can pay for the Best!

Let's meet with the idea that you want to drive the very best car your money will buy. Who doesn't? You want to enjoy the thrill of commanding an automobile. You want to enjoy the thrill of all-around performance. You want to know for sure that the car you're driving will give you miles and miles of confident service.

What you want is a Pontiac!

Pontiac is for young men—and we'll show you that dollar for dollar you can't beat a Pontiac. Because to Pontiac, beauty and cost, are not separate considerations. They are one. You want more for your money than a new Pontiac? Come in now!

Fight Infantile Paralysis JOIN THE MARCH OF DIMES

THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

Mr. Greene has been in full charge of the farm during the six-month period referred to having succeeded the late Manager W. B. Greene. Mr. Greene had been manager at the farm for some 15 years.

The products of all rice and dried beans are two crops which local farmers have had demonstrated to them by the farm's activities.

For several years, Mr. Mayo, the Director of all State Prisons has been a ramie enthusiast and the Board has backed him up in an effort to demonstrate the feasibility of economical production of ramie stalks from which the fiber is produced. As this industry is being ably demonstrated by private capital at Canal Point, emphasis is definitely in the farms activities in recent months.

Despite cutbacks in vegetable production, the agent said, Palm Beach County still remains the leading county in the nation in production of vegetables.

Palm Beach County growers, Mounts said, have found that the rich mucklands in the Glades and the sandy stretches along the coast, because of their high productive value, were bringing bumper crops each year which were glutting the market. By converting some of these areas to pasture land, a more balanced farm economy has been established. Most successful farmers in the county, the agent said, are those who produce vegetables and who also raise beef cattle. Mounts said it has been proven that it is not a sound practice for a farmer to turn his entire acreage either to vegetables or cattle raising.

Glades pastures, the agent said, will produce from 400 to 1,000 pounds of beef per acre, an outstanding production figure in cattle raising. Some experimental pasture land has produced a ton of beef per acre, the agent said, according to the report.

As for vegetable production here during the year, Mr. Mounts termed the period "a very good year." Despite the hurricane and freeze early last year, between 14 and 15 thousand carloads of vegetables were shipped out of the county crops which brought top prices on the market. Premium prices,

Glandular organs contain large amounts of Vitamin A, especially the liver. Halibut liver oil is 60 to 100 times richer than cod liver oil. However, care should be taken to not expose animal fats to air as it loses potency when exposed to air. The following information is from the Bureau of Home Economics of the United States Agricultural

Sources of Vitamin E

Cereals are the best sources of Vitamin E. That is when the whole grain, restored, or enriched cereal is used. Care however should be used in the cooking of cereals to avoid loss of vitamin E content. Next to cereals is legumes, such as peas and soybeans. Soy beans both dried and fresh are excellent sources. The vegetables that are good sources are, steamed spinach, asparagus, brussels sprouts, collards, and corn. Tomatoes, fresh or canned, and baked potatoes are also good sources. Oranges, grapefruit, pineapple, and apples are good and eaten in sufficient quantities will contribute this vitamin. Two egg yolks are equal to one medium sized potato. Liver and kidney are very good sources. The rich

Fourth Grade-A Selects Outstanding People Of The Month

The pupils of grade 4-A, under the direction of their teacher, Mrs. J. E. Smith, have begun the practice of selecting outstanding people in various walks of life for recognition. The pupils have chosen as all local people, and are divided into the following categories: (1) Parent of the Month, (2) Citizen of the Month, (3) Student of the Month, and (4) Teacher of the Month. Under the direction of their teacher, the pupils themselves vote and decide upon these people. Information gathered by the pupils concerning person chosen

Parent of the Month
Mrs. Annette Chestnut, the charming mother of Charles, Dorothy, and James has been chosen by grade 4-A as the first Parent of the Month. Mrs. Chestnut is a Floridian by birth, hailing from Graceville, Florida. She is a faithful member of First Baptist Church, and a

Citizen of the Month
Mrs. Frances Morgan is the Citizen of the Month. She hails from Miami, Florida, but decided that Belle Glade would be a better place to live. She has made Belle Glade her home for the past eleven years. Here in Belle Glade she has cooperated willingly with every program sponsored for community betterment. A faithful citizen, she is the mother of one daughter, Constance "Connie" Morgan, and a member of First Baptist Church.

Student of the Month
Delphia Lee Johnson, 18, the daughter of Eddie Johnson, has been named the first Student of the Month at Lakes Shore Elementary School. She was born and raised in the area and lives here since that time. She was chosen because of her respect for adults and courteous relations towards her schoolmates and teachers. These, she knows, are the qualities that will help her finish young womanhood.

Delphia has two brothers, Andrew and Robert. Her favorite subject is English. Some of her hobbies are reading, sewing, and sports. She is a member of the Lakeshore Youth Club, the High School. She is a member of the Game Club and Athletic Club. Delphia is a member of First Baptist Church.

Teacher of the Month

Mrs. Eva P. Oliver, one of the best instructors at Lela Shore Elementary, has been chosen Teacher of the Month.

Mrs. Oliver was born in Daytona Beach, Florida, but has made her home in Tallahassee for the past six years. Graduating with honors from Bethune-Cookman College, Mrs. Oliver received her Bachelor of Science degree in Elementary Education. She has been teaching nineteen years and seems to enjoy her work more as the years pass by. Her hobbies are collecting photos and sewing. Mrs. Oliver is a member of the First Baptist Church.

Mrs. Addison Spencer
of the Garden Club

Under the sponsorship of the Mrs. Marie Addison, teacher at McCarty, the following is the

Mrs. G. M. Douglas, Reporter

By Mr. Roy Murph
New Bethel Sunday School
met at 9:30 o'clock with Supt.
Dec. S. Kendall and all teach-
ers present. Highlights on the
lesson was given by Rev. B. J.

11:30 devotion was conducted by Mrs. G. M. Douglas after which Rev. B. J. Sneed came forward and read for our consideration, 3: Chapter St. John 15-18 verse, his subject was God so loved the world—his text was love. The doors of the church were open Mrs. Clara Royals rejoined and was restored back to her full membership.

B.Y.P.U. began at 6 o'clock with the President present, we had a wonderful lesson, it was from Psalm 118:1-15 verse, it was wonderfully reviewed by Mrs. S. A. O'Neal. One of the teachers

ers of Everglades Vocational high school, Mr. M. M. Hamilton was present, he gave the young people a good short talk on behavior, which was very interesting. We were more than glad to have Mr. Hamilton with us and we hope he will come again. We are inviting everyone to our B.Y.P.U. the hour is 7 o'clock until 7 o'clock. We were very glad to have Miss Juanita James back in B.Y.P.U. Sunday after visiting her father in Ocala.

7:30 devotion was conducted by Mrs. Carrie Johnson. Sunday was Mission day. The spirit ran high throughout the day. The Rev. B. J. Snead came to us again with a soul stirring sermon. The doors of church were open, one joined. Collection was good. All readers are invited to attend all meetings at all times at the little church by the side of the canal known as home of the ghost headquarters.

That's the word spreading about Buick's brand-new F-263 valve-in-head engine, already proving itself in the hands of new SUPER owners.

CALL IT if you will the biggest power-plant story of the year. Call it another triumph in Buick's long history of coming up with car performance beyond compare.

But, here, when you step into the sleek-lined, sleeker-pierced *—hang on to your hat.*

For you'll be riding behind a power plant that is not only new but a major sensation of the 1990 season.

It'll be commending the very latest in Buick's "oil-burner" technology as the newest accomplishment of the organization with the country's longest stretch of experience in this engine design.

more rugged bearings, take this greater load and transmit its stepped-up surge to the drive shaft and rear wheels.

*And you, behind the wheel, watch wheels spin like *—at the left you find.**

The trigger—quick take-off—the mile-eating cruising stride — your easy disdain for the passing gas pumps.

You and your Buick are really entering outland Buick's good game as "a sweetheart on the road" gains still more lustre.

Either way, this SUPER is certainly something to see. To this top-notch new power it adds style and room comfort and a wide outlook, soft ease of stride and handier new over-all length.

Even the price justifies a prompt trip to your Buick dealer to see what Buick has for 1990. You'll soon see why so many folks are already saying "Whatever your price range — better buy Buick."

*Based on BUDGETARY, after-tax, extra out-of-pocket and SPECIAL, including destination charge.

Features like these mean
BUICK'S THE BEST

Here every fat-wallop fuelarge now delivers a bucket-wallop. Shorter, lighter connecting rods mean that pistons flash with faster and livelier action.

Heavier crankshafts, coated on bigger,

Nor is road-thrill the only blessing this new power plant brings. Simpler design makes service easier, so upkeep diminishes as a problem. Hydraulic valve-lifters keep valves properly seated for efficient operation—and for
